FORWARD-LOOKING STATEMENTS

This report contains and references certain information that constitutes forward-looking statements as that term is defined in the federal securities laws. Forward-looking statements are all statements other than those of historical fact. Such forward-looking statements are made based upon management's current assessments of various risks and uncertainties, as well as assumptions made in accordance with the "safe harbor" provisions of the federal securities laws. Forward-looking statements are inherently subject to various risks and uncertainties and the Company's actual results could differ materially from the results expressed in or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2023 and other subsequent filings made by the Company from time to time with the Securities and Exchange Commission. In addition, other risks and uncertainties not known by us, or that we currently determine to not be material, may materially adversely affect our financial condition, results of operations or cash flows. The Company undertakes no obligation to update any forward-looking statement as a result of subsequent developments, changes in underlying assumptions or facts, or otherwise, except as may be required by law.

ATLANTIC AMERICAN CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited; Dollars in thousands, except per share amounts)

Note 1. Basis of Presentation and Significant Accounting Policies

The accompanying unaudited condensed consolidated financial statements include the accounts of Atlantic American Corporation (the “Parent”) and its subsidiaries (collectively with the Parent, the “Company”). The Parent’s primary operating subsidiaries, American Southern Insurance Company and American Safety Insurance Company (together known as “American Southern”) and Bankers Fidelity Life Insurance Company, Bankers Fidelity Assurance Company and Atlantic Capital Life Assurance Company (together known as “Bankers Fidelity”), operate in two principal business units. American Southern operates in the property and casualty insurance market, while Bankers Fidelity operates in the life and health insurance market. All significant intercompany accounts and transactions have been eliminated in consolidation. The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and notes required by GAAP for audited annual financial statements. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included. The unaudited condensed consolidated financial statements included herein and these related notes should be read in conjunction with the Company’s consolidated financial statements, and the notes thereto, included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2023 (the “2023 Annual Report”). For more information regarding Significant Accounting Policies, see the “Summary of Significant Accounting Policies” section of Note 1 of Notes to Consolidated Financial Statements in the 2023 Annual Report. The Company’s financial condition and operating results as of and for the three month and six month periods ended June 30, 2024 are not necessarily indicative of the financial condition or results of operations and cash flows that may be expected for the year ending December 31, 2024 or for any other future period.

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from those estimates. To the extent that the Company changes its accounting for, or presentation of, items in the financial statements, the presentation of such amounts in prior periods is changed to conform to the current period presentation, if appropriate, and disclosed, if material.

Note 2. Recently Issued Accounting Standards

Future Adoption of New Accounting Standards

For more information regarding accounting standards that the Company has not yet adopted, see the “Recently Issued Accounting Standards - Future Adoption of New Accounting Standards” section of Note 1 of Notes to Consolidated Financial Statements in the 2023 Annual Report.

Note 3. Investments

The following tables set forth the estimated fair value, gross unrealized gains, gross unrealized losses, allowance for credit losses (“ACL”) and cost or amortized cost of the Company’s investments in fixed maturities and equity securities, aggregated by type and industry, as of June 30, 2024 and December 31, 2023.

Analysis of Securities in Unrealized Loss Positions

As of June 30, 2024 and December 31, 2023, there were 225 and 222 securities, respectively, in an unrealized loss position which primarily included certain of the Company's investments in fixed maturities within the utilities and telecom, financial services, other diversified business and other diversified consumer sectors. The unrealized losses on the Company's fixed maturity securities investments have been primarily related to general market changes in interest rates and/or the levels of credit spreads rather than specific concerns with the issuer's ability to pay interest and repay principal.

For any of its fixed maturity securities with significant declines in fair value, the Company performs detailed analyses to identify whether the drivers of the declines are due to general market drivers, such as the recent increases in interest rates, or due to credit-related factors. Identifying the drivers of the declines in fair value helps to align and allocate the Company's resources to securities with real credit-related concerns that could impact the ultimate collection of principal and interest. For any significant declines in fair value determined to be non-interest rate or market related, the Company performs a more focused review of the related issuers' specific credit profile.

For corporate issuers, the Company evaluates their assets, business profile including industry dynamics and competitive positioning, financial statements and other available financial data. For non-corporate issuers, the Company analyzes all reasonably available sources of credit support, including issuer-specific factors. The Company utilizes information available in the public domain and, for certain private placement issuers, from consultations with the issuers directly. The Company also considers ratings from Nationally Recognized Statistical Rating Organizations, as well as the specific characteristics of the security it owns including seniority in the issuer's capital structure, covenant protections, or other relevant features. From these reviews, the Company evaluates the issuers' continued ability to service the Company's investment through payment of interest and principal.

Assuming no credit-related factors develop, unrealized gains and losses on fixed maturity securities are expected to diminish as investments near maturity. Based on its credit analysis, the Company believes that the issuers of its fixed maturity investments in the sectors shown in the table above have the ability to service their obligations to the Company. In addition, the Company does not intend to sell the investments and it is not more likely than not that the Company will be required to sell the investments before recovery of their amortized cost bases, which may be at maturity.

However, from time to time the Company identifies certain available-for-sale fixed maturity securities where the amortized cost basis exceeds the present value of the cash flows expected to be collected due to credit related factors and as a result, a credit allowance will be estimated. The Company had no ACL on its available-for-sale fixed maturities as of June 30, 2024 or December 31, 2023.

The following tables summarize realized investment gains (losses) for the three month and six month periods ended June 30, 2024 and 2023.

Variable Interest Entities

The Company holds passive interests in a number of entities that are considered to be variable interest entities (“VIEs”) under GAAP guidance. The Company’s VIE interests principally consist of interests in limited liability companies formed for the purpose of achieving diversified equity returns. The Company’s VIE interests, carried as a part of other invested assets, totaled \$6,063 and \$6,381 as of June 30, 2024 and December 31, 2023, respectively. The Company’s VIE interests, carried as a part of investment in unconsolidated trusts, totaled \$1,238 as of June 30, 2024 and December 31, 2023.

The Company does not have power over the activities that most significantly impact the economic performance of these VIEs and thus is not the primary beneficiary. Therefore, the Company has not consolidated these VIEs. The Company’s involvement with each VIE is limited to its direct ownership interest in the VIE. The Company’s maximum loss exposure relative to these investments was limited to the carrying value of the Company’s investment in the VIEs, which amount to \$7,301 and \$7,619, as of June 30, 2024 and December 31, 2023, respectively. As of June 30, 2024 and December 31, 2023, the Company had outstanding commitments totaling \$4,518, respectively, whereby the Company is committed to fund these investments and may be called by the partnership during the commitment period to fund the purchase of new investments and partnership expenses.

Note 4. Fair Values of Financial Instruments

The estimated fair values have been determined by the Company using available market information from various market sources and appropriate valuation methodologies as of the respective dates. However, considerable judgment is necessary to interpret market data and to develop the estimates of fair value. Although management is not aware of any factors that would significantly affect the estimated fair value amounts, the estimates presented herein are not necessarily indicative of the amounts which the Company could realize in a current market exchange. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

The following describes the fair value hierarchy and provides information as to the extent to which the Company uses fair value to measure the value of its financial instruments and information about the inputs used to value those financial instruments. The fair value hierarchy prioritizes the inputs in the valuation techniques used to measure fair value into three broad levels.

- Level 1 Observable inputs that reflect quoted prices for identical assets or liabilities in active markets that the Company has the ability to access at the measurement date. The Company’s financial instruments valued using Level 1 criteria include cash equivalents and exchange traded common stocks.
- Level 2 Observable inputs, other than quoted prices included in Level 1, for an asset or liability or prices for similar assets or liabilities. The Company’s financial instruments valued using Level 2 criteria include most of its fixed maturities, which consist of U.S. Treasury securities, U.S. Government securities, obligations of states and political subdivisions, and certain corporate fixed maturities, as well as its non-redeemable preferred stocks. In determining fair value measurements of its fixed maturities and non-redeemable preferred stocks using Level 2 criteria, the Company utilizes data from outside sources, including nationally recognized pricing services and broker/dealers. Prices for the majority of the Company’s Level 2 fixed maturities and non-redeemable preferred stocks were determined using unadjusted prices received from pricing services that utilize models where the significant inputs are observable (e.g. interest rates, yield curves, prepayment speeds, default rates, loss severities) or can be corroborated by observable market data.

Level 3 Valuations that are derived from techniques in which one or more of the significant inputs are unobservable (including assumptions about risk). Fair value is based on criteria that use assumptions or other data that are not readily observable from objective sources. With little or no observable market, the determination of fair values uses considerable judgment and represents the Company's best estimate of an amount that could be realized in a market exchange for the asset or liability. The Company's financial instruments valued using Level 3 criteria consist of one equity security. As of June 30, 2024 and December 31, 2023, the value of the equity security valued using Level 3 criteria was \$189 and \$185, respectively.

As of June 30, 2024, financial instruments carried at fair value were measured on a recurring basis as summarized below:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Assets:				
Fixed maturities	\$ —	\$ 216,636	\$ —	\$ 216,636

Total	<u>\$ 21,493</u>	<u>\$ 216,636</u>	<u>\$ 189</u>	<u>\$ 238,318</u>

As of December 31, 2023, financial instruments carried at fair value were measured on a recurring basis as summarized below:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

Note 6. Internal-Use Software

On March 3, 2021, the Company entered into a hosting arrangement through a service contract with a third party software solutions vendor to provide a suite of policy, billing, claim, and customer management services. The software is managed, hosted, supported, and delivered as a cloud-based software service product offering (software-as-a-service). The initial term of the arrangement is five years from the effective date with a renewal term of an additional five years.

Service fees related to the hosting arrangement are recorded as an expense in the Company's condensed consolidated statement of operations as incurred. Implementation expenses incurred related to third party professional and consulting services have been capitalized. The Company will begin amortizing, on a straight-line basis over the expected ten year term of the hosting arrangement, when the software is substantially ready for its intended use. The Company incurred and capitalized implementation costs of \$51 and \$628 during the six months ended June 30, 2024 and 2023, respectively. As a result, the Company has capitalized \$4,618 and \$4,567 in implementation costs in other assets within its condensed consolidated balance sheet as of June 30, 2024 and December 31, 2023, respectively. The Company expects the software will be substantially ready for its intended use in the second half of 2024. Accordingly, the Company has not recorded any amortization expense related to software implementation costs for the three months and six months ended June 30, 2024 and 2023.

Note 7. Insurance Reserves for Losses and Claims

The roll-forward of insurance reserves for losses and claims for the six months ended June 30, 2024 and 2023 is as follows:

	Six Months Ended June 30,	
	2024	2023
Beginning insurance reserves for losses and claims, gross	\$ 87,478	\$ 87,484

(1) Prior years' development was primarily the result of unfavorable development in the property and casualty operations predominately in the automobile liability line of business due to inflationary factors.

(2) Prior years' development was primarily the result of unfavorable development in the property and casualty operations predominately in the automobile liability line of business due to inflationary factors, partially offset by favorable development in the Medicare supplement line of business in the life and health operations.

Following is a reconciliation of total incurred losses to total insurance benefits and losses incurred:

	Six Months Ended June 30,

Note 8. Credit Arrangements

Bank Debt

On May 12, 2021, the Company entered into a Revolving Credit Agreement with Truist Bank as the lender (the “Lender”). The Revolving Credit Agreement provides for an unsecured \$10,000 revolving credit facility that originally matured on April 12, 2024. On March 22, 2024, the Company entered into a First Amendment (the “Amendment”) to its Revolving Credit Agreement (as amended, the “Credit Agreement”) with the Lender. The Amendment, among other things, (a) updates the interest rate provisions to memorialize that the Company pays interest on the unpaid principal balance of outstanding revolving loans at the Adjusted Term SOFR rate (as defined in the Credit Agreement), plus 2.00%, (b) extends the maturity date of the revolving credit facility to March 22, 2027, (c) requires the monthly payment of an unused commitment fee of \$0.2% of the unused facility amount, and (d) requires that the Company maintain a consolidated net worth of not less than \$64,200. Except as modified by the Amendment, the existing terms of the original Credit Agreement remain in effect.

The Credit Agreement requires the Company to comply with certain covenants, including a debt-to-capital ratio that restricts the Company from incurring consolidated indebtedness that exceeds 35% of the Company’s consolidated capitalization at any time and maintaining a minimum consolidated net worth, as previously mentioned. The Credit Agreement also contains customary representations and warranties and events of default. Events of default include, among others, (a) the failure by the Company to pay any amounts owed under the Credit Agreement when due, (b) the failure to perform and not timely remedy certain covenants, (c) a change in control of the Company and (d) the occurrence of bankruptcy or insolvency events. Upon an event of default, the Lender may, among other things, declare all obligations under the Credit Agreement immediately due and payable and terminate the revolving commitments. As of June 30, 2024, and December 31, 2023, the Company had outstanding borrowings including accrued interest of \$4,024 and \$3,019, respectively, under the Credit Agreement.

For the three months ended June 30, 2024 and 2023, the Company incurred \$61 and \$33 in interest expense, respectively, on the revolving credit facility borrowing. For the six months ended June 30, 2024 and 2023, the Company incurred \$137 and \$86, respectively, in interest expense. During the three month and six month periods ended June 30, 2024, the Company paid \$0.3 and \$3.3, respectively, in fees on the available unused amount of the revolving credit facility of \$6,000. At June 30, 2024 and December 31, 2023, the effective interest rate was 7.43% and 9.69%, respectively.

Junior Subordinated Debentures

The Company has two unconsolidated Connecticut statutory business trusts, which exist for the exclusive purposes of: (i) issuing trust preferred securities (“Trust Preferred Securities”) representing undivided beneficial interests in the assets of the trusts; (ii) investing the gross proceeds of the Trust Preferred Securities in junior subordinated deferrable interest debentures (“Junior Subordinated Debentures”) of the Company; and (iii) engaging in those activities necessary or incidental thereto.

The outstanding \$18,042 and \$15,696 of Junior Subordinated Debentures mature on December 4, 2032 and May 15, 2033, respectively, are callable quarterly, in whole or in part, only at the option of the Company. Prior to July 1, 2023, the interest rate was based on 3-month LIBOR plus an applicable margin. Effective July 1, 2023, the interest rate is determined based on a reference rate of the 3-month SOFR plus applicable tenor spread of 0.26161 percent plus an applicable margin, ranging from 4.00% to 4.10%. At June 30, 2024, the effective interest rate was 9.65%.

The financial structure of each of Atlantic American Statutory Trust I and II as of June 30, 2024 was as follows:

	Atlantic American Statutory Trust I	Atlantic American Statutory Trust II

- (1) For each of the respective debentures, the Company has the right at any time, and from time to time, to defer payments of interest on the Junior Subordinated Debentures for a period not exceeding 20 consecutive quarters up to the debentures' respective maturity dates. During any such period, interest will continue to accrue and the Company may not declare or pay any cash dividends or distributions on, or purchase, the Company's common stock nor make any principal, interest or premium payments on or repurchase any debt securities that rank equally with or junior to the Junior Subordinated Debentures. The Company has the right at any time to dissolve each of the trusts and cause the Junior Subordinated Debentures to be distributed to the holders of the Trust Preferred Securities.
- (2) The Junior Subordinated Debentures are unsecured and rank junior and subordinate in right of payment to all senior debt of the Parent and are effectively subordinated to all existing and future liabilities of its subsidiaries.
- (3) On August 4, 2014, the Company acquired \$7,500 of the Junior Subordinated Debentures.
- (4) The Parent has guaranteed, on a subordinated basis, all of the obligations under the Trust Preferred Securities, including payment of the redemption price and any accumulated and unpaid distributions to the extent of available funds and upon dissolution, winding up or liquidation.

The assumed conversion of the Company's Series D preferred stock was excluded from the earnings (loss) per common share calculation for all periods presented, except for the three month period ended June 30, 2023, since its impact would have been antidilutive.

Note 10. Income Taxes

A reconciliation of the differences between income taxes computed at the federal statutory income tax rate and income tax expense (benefit) is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,

Note 11. Leases

The Company has two operating lease agreements, each for the use of office space in the ordinary course of business. The first lease renews annually on an automatic basis and based on original assumptions, management is reasonably certain to exercise the renewal option through 2026. The original term of the second lease was ten years and amended in January 2017 to provide for an additional seven years, with a termination date on September 30, 2026. The rate used in determining the present value of lease payments is based upon an estimate of the Company's incremental secured borrowing rate commensurate with the term of the underlying lease.

These leases are accounted for as operating leases, whereby lease expense is recognized on a straight-line basis over the term of the lease. Lease expense reported for the six months ended June 30, 2024 and June 30, 2023 was \$507.

Additional information regarding the Company's real estate operating leases is as follows:

Note 12. Commitments and Contingencies

Litigation

From time to time, the Company is, and expects to continue to be, involved in various claims and lawsuits incidental to and arising in the ordinary course of its business. In the opinion of management, any such known claims are not expected to have a material effect on the financial condition or results of operations of the Company.

Regulatory Matters

Like all domestic insurance companies, the Company's insurance subsidiaries are subject to regulation and supervision in the jurisdictions in which they do business. Statutes typically delegate regulatory, supervisory, and administrative powers to state insurance commissioners. From time to time, and in the ordinary course of business, the Company receives notices and inquiries from state insurance departments with respect to various matters. In the opinion of management, any such known regulatory matters are not expected to have a material effect on the financial condition or results of operations of the Company.

Note 13. Segment Information

The Parent's primary insurance subsidiaries, American Southern and Bankers Fidelity, operate in two principal business units, each focusing on specific products. American Southern operates in the property and casualty insurance market, while Bankers Fidelity operates in the life and health insurance market. Each business unit is managed independently and is evaluated on its individual performance. The following sets forth the assets, revenue and income (loss) before income taxes for each business unit as of and for the periods ended 2024 and 2023.

Item 2.

**MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS**

Overview

The following is management’s discussion and analysis of the financial condition and results of operations of Atlantic American Corporation (“Atlantic American” or the “Parent”) and its subsidiaries (collectively with the Parent, the “Company”) as of and for the three month and six month periods ended June 30, 2024. This discussion should be read in conjunction with the unaudited condensed consolidated financial statements and notes thereto included elsewhere herein, as well as with the audited consolidated financial statements and notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2023 (the “2023 Annual Report”).

Atlantic American is an insurance holding company whose operations are conducted primarily through its insurance subsidiaries: American Southern Insurance Company and American Safety Insurance Company (together known as “American Southern”) and Bankers Fidelity Life Insurance Company, Bankers Fidelity Assurance Company and Atlantic Capital Life Assurance Company (together known as “Bankers Fidelity”). Each operating company is managed separately, offers different products and is evaluated on its individual performance.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect reported amounts and related disclosures. Actual results could differ significantly from those estimates. The Company has identified certain estimates that involve a higher degree of judgment and are subject to a significant degree of variability. The Company’s critical accounting policies and the resultant estimates considered most significant by management are disclosed in the 2023 Annual Report. Except as disclosed in Note 1 of Notes to Condensed Consolidated Financial Statements, the Company’s critical accounting policies are consistent with those disclosed in the 2023 Annual Report.

Overall Corporate Results

The following presents the Company’s revenue, expenses and net income (loss) for the three month and six month periods ended June 30, 2024 and the comparable periods in 2023:

Net income (loss)	<u>\$ (684)</u>	<u>\$ 1,744</u>	<u>\$ (2,682)</u>	<u>\$ 298</u>

In addition to measures of operating performance determined in accordance with GAAP, management also considers and evaluates performance by analyzing the non-GAAP measure operating income (loss). We define operating income (loss) as net income (loss) excluding: (i) income tax expense (benefit); (ii) realized investment (gains) losses, net; and (iii) unrealized (gains) losses on equity securities, net. Management believes operating income (loss) is a useful metric for investors, potential investors, securities analysts and others because it isolates the “core” operating results of the Company before considering certain items that are either beyond the control of management (such as taxes, which are subject to timing, regulatory and rate changes depending on the timing of the associated revenues and expenses) or are not expected to regularly impact the Company’s operational results (such as any realized and unrealized investment gains, which are not a part of the Company’s primary operations and are, to a limited extent, subject to discretion in terms of timing of realization).

A reconciliation of net income (loss) to operating income (loss) for the three month and six month periods ended June 30, 2024 and the comparable periods in 2023 is as follows:

Reconciliation of Non-GAAP Financial Measure (In thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2024	2023	2024	2023
Net income (loss)	\$ (684)	\$ 1,744	\$ (2,682)	\$ 298
Income tax expense (benefit)	(165)	473	(673)	101
Realized investment gains, net	(13)	(70)	(13)	(70)
Unrealized (gains) losses on equity securities, net	(243)	(494)	(129)	1,881
Non-GAAP operating income (loss)	\$ (1,105)	\$ 1,653	\$ (3,497)	\$ 2,210

On a consolidated basis, the Company had net loss of \$0.7 million, or \$(0.04) per diluted share, for the three month period ended June 30, 2024, compared to net income of \$1.7 million, or \$0.08 per diluted share, for the three month period ended June 30, 2023. The Company had net loss of \$2.7 million, or \$(0.14) per diluted share, for the six month period ended June 30, 2024, compared to net income of \$0.3 million, or \$0.00 per diluted share, for the six month period ended June 30, 2023. The increase in net loss for the three month and six month periods ended June 30, 2024 was primarily the result of unfavorable loss experience in the life and health operations, as well as in the property and casualty operations, from the comparable periods in 2023, coupled with a decrease in premium revenue in the life and health operations. Partially offsetting this increase in net loss for the three month and six month periods ended June 30, 2024 was a decrease in commissions and underwriting expenses primarily due to the variable commission structure in the property and casualty operations, coupled with a decrease in commission expenses within the life and health operations. Also, partially offsetting the increase in net loss was an increase in unrealized gains on equity securities during the six month period ended June 30, 2024.

For the three month period ended June 30, 2024, premium revenue decreased \$1.1 million, or 2.3%, to \$45.0 million from \$46.1 million in the comparable period in 2023. For the six month period ended June 30, 2024, premium revenue decreased \$2.6 million, or 2.8%, to \$89.5 million from \$92.2 million in the comparable period in 2023. The decrease in premium revenue during the three month and six month periods ended June 30, 2024 was primarily attributable to a decrease in the Medicare supplement insurance premiums in the life and health operations. Also contributing to this decrease during the three month period ended June 30, 2024 was a decline in insurance premiums in the automobile physical damage line of business due to an overall decline in the trucking industry in the property and casualty operations.

Operating income decreased \$2.8 million in the three month period ended June 30, 2024 from the three month period ended June 30, 2023. For the six month period ended June 30, 2024, operating income decreased \$5.7 million from the comparable period in 2023. The decrease in operating income for the three month and six month periods ended June 30, 2024 was primarily the result of an unfavorable loss experience in the life and health operations due to an increase in incurred losses in the group life and Medicare supplement lines of business. Also contributing to the decrease in operating income was an unfavorable loss experience in the property and casualty operations due to the frequency and severity of claims in the automobile liability line of business.

A more detailed analysis of the individual operating segments and other corporate activities follows.

American Southern

The following summarizes American Southern's premiums, losses, expenses and underwriting ratios for the three month and six month periods ended June 30, 2024 and the comparable periods in 2023:

(Dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2024	2023	2024	2023
Gross written premiums	\$ 36,499	\$ 38,075	\$ 44,969	\$ 47,505

Expense ratio	20.2	24.5	22.8	24.4
Combined ratio	101.3%	100.3%	99.1%	99.1%

Gross written premiums at American Southern decreased \$1.6 million, or 4.1%, during the three month period ended June 30, 2024 and decreased \$2.5 million, or 5.3%, during the six month period ended June 30, 2024, from the comparable periods in 2023. The decrease in gross written premiums during the three month and six month periods ended June 30, 2024 was primarily attributable to the decrease in premiums written in the automobile physical damage line of business due to an overall decline in the trucking industry. Also contributing to the decrease in gross written premiums was a decrease in premiums written in the surety line of business due to construction slowdowns in certain regions.

Ceded premiums increased slightly during the three month period ended June 30, 2024 and decreased slightly during the six month period ended June 30, 2024, from the comparable periods in 2023. American Southern's ceded premiums are typically determined as a percentage of earned premiums and generally fluctuate as earned premiums increase or decrease or retentions levels change.

The following presents American Southern's net earned premiums by line of business for the three month and six month periods ended June 30, 2024 and the comparable periods in 2023:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2024	2023	2024	2023
(In thousands)				
Automobile liability	\$ 10,728	\$ 10,495	\$ 21,652	\$ 19,815
Automobile physical damage	3,251	3,793	6,622	8,040
General liability	1,526	1,419	3,021	2,851
Surety	1,440	1,539	2,959	3,104
Other lines	599	634	1,168	1,281
Total	<u>\$ 17,544</u>	<u>\$ 17,880</u>	<u>\$ 35,422</u>	<u>\$ 35,091</u>

Net earned premiums decreased \$0.3 million, or 1.9%, during the three month period ended June 30, 2024, and increased \$0.3 million, or 0.9%, during the six month period ended June 30, 2024, over the comparable periods in 2023. The decrease in net earned premiums during the three month period ended June 30, 2024 was primarily attributable to a decrease in earned premiums in the automobile physical damage line of business due to an overall decline in the trucking industry as previously mentioned. The increase in net earned premiums during the six month period ended June 30, 2024 was primarily attributable to an increase in earned premiums in the automobile liability line of business due to an increase in the number of programs. Premiums are earned ratably over their respective policy terms, and therefore premiums earned in the current year are related to policies written during both the current year and immediately preceding year.

The performance of an insurance company is often measured by its combined ratio. The combined ratio represents the percentage of losses, loss adjustment expenses and other expenses that are incurred for each dollar of premium earned by the company. A combined ratio of under 100% represents an underwriting profit while a combined ratio of over 100% indicates an underwriting loss. The combined ratio is divided into two components, the loss ratio (the ratio of losses and loss adjustment expenses incurred to premiums earned) and the expense ratio (the ratio of expenses incurred to premiums earned).

Insurance benefits and losses incurred at American Southern increased \$0.7 million, or 5.0%, during the three month period ended June 30, 2024, and increased \$0.8 million, or 3.2%, during the six month period ended June 30, 2024, over the comparable periods in 2023. As a percentage of earned premiums, insurance benefits and losses incurred were 81.1% in the three month period ended June 30, 2024, compared to 75.8% in the three month period ended June 30, 2023. For the six month period ended June 30, 2024, this ratio increased to 76.3% from 74.7% in the comparable period in 2023. The increase in the loss ratio during the three month and six month periods ended June 30, 2024 was mainly due to an increase in the frequency and severity of claims in the automobile liability line of business, as well as in the surety line of business. Partially offsetting the increase in the loss ratio was a decrease in loss adjustment expenses related to a decline in claims costs.

Commissions and underwriting expenses decreased \$0.8 million, or 19.1%, during the three month period ended June 30, 2024, and \$0.5 million, or 5.7% during the six month period ended June 30, 2024, over the comparable periods in 2023. As a percentage of earned premiums, underwriting expenses were 20.2% in the three month period ended June 30, 2024, compared to 24.5% in the three month period ended June 30, 2023. For the six month period ended June 30, 2024, this ratio decreased to 22.8% from 24.4% in the comparable period in 2023. The decrease in the expense ratio during the three month and six month periods ended June 30, 2024 was primarily due to American Southern's use of a variable commission structure with certain agents, which compensates the participating agents in relation to the loss ratios of the business they write. During periods in which the loss ratio decreases, commissions and underwriting expenses will generally increase, and conversely, during periods in which the loss ratio increases, commissions and underwriting expenses will generally decrease. During the three month and six month periods ended June 30, 2024, variable commissions at American Southern decreased by \$0.6 million and \$0.9 million, respectively, from the comparable periods in 2023 due to an unfavorable loss experience from accounts subject to variable commissions.

Bankers Fidelity

The following summarizes Bankers Fidelity's earned premiums, losses, expenses and underwriting ratios for the three month and six month periods ended June 30, 2024 and the comparable periods in 2023:

	Three Months Ended June 30,		Six Months Ended June 30,

Loss ratio	64.0%	56.1%	67.8%	58.9%
Expense ratio	38.0	38.5	38.4	37.8
Combined ratio	102.0%	94.6%	106.2%	96.7%

Net earned premium revenue at Bankers Fidelity decreased \$0.7 million, or 2.6%, during the three month period ended June 30, 2024, and \$2.9 million, or 5.2%, during the six month period ended June 30, 2024, from the comparable periods in 2023. Gross earned premiums from the Medicare supplement line of business decreased \$2.7 million, or 8.2%, during the three month period ended June 30, 2024, and \$5.7 million, or 8.4%, during the six month period ended June 30, 2024, due primarily to non-renewals exceeding the level of new business writings. Other health product premiums increased \$0.2 million, or 4.7%, during the three month period ended June 30, 2024, and \$0.1 million, or 0.9%, during the six month period ended June 30, 2024, over the comparable periods in 2023, primarily due to new sales in the group accident and health products. Gross earned premiums from the life insurance line of business increased \$0.9 million, or 19.9%, during the three month period ended June 30, 2024, and increased \$0.7 million, or 6.6%, during the six month period ended June 30, 2024, over the comparable periods in 2023, primarily due to an increase in the group life products premium. Partially offsetting this increase was a decrease in individual life products premium, resulting from the redemption and settlement of existing individual life policy obligations exceeding the level of new individual life sales. Ceded premiums decreased \$0.9 million, or 6.6%, during the three month period ended June 30, 2024 and \$2.0 million, or 7.1%, during the six month period ended June 30, 2024, from the comparable periods in 2023. The decrease in ceded premiums for the three month and six month periods ended June 30, 2024 was due to a decrease in Medicare supplement premiums subject to reinsurance.

Insurance benefits and losses incurred increased \$1.8 million, or 11.1%, during the three month period ended June 30, 2024, and \$3.1 million, or 9.1%, during the six month period ended June 30, 2024, from the comparable periods in 2023. As a percentage of earned premiums, benefits and losses were 64.0% in the three month period ended June 30, 2024, compared to 56.1% in the three month period ended June 30, 2023. For the six month period ended June 30, 2024, this ratio increased to 67.8% from 58.9% in the comparable period in 2023. The increase in the loss ratio for the three month and six month periods ended June 30, 2024 was primarily due to an increase in reserves in the group life line of business, as well as an increase in paid claims in relation to premiums within the Medicare supplement line of business.

Commissions and underwriting expenses decreased \$0.4 million, or 3.8%, during the three month period ended June 30, 2024, and \$0.8 million, or 3.6%, during the six month period ended June 30, 2024, over the comparable periods in 2023. As a percentage of earned premiums, underwriting expenses were 38.0% in the three month period ended June 30, 2024, compared to 38.5% in the three month period ended June 30, 2023. For the six month period ended June 30, 2024, this ratio increased to 38.4% from 37.8% in the comparable period in 2023. The decrease in the expense ratio for the three month period ended June 30, 2024 was primarily due to a decrease in commission expenses in the group life line of business, coupled with a decrease in the Medicare supplement line of business as a result of non-renewals exceeding the level of new business writings, as previously mentioned. The increase in the expense ratio for the six month period ended June 30, 2024 was due to an increase in administrative costs related to the growth in the group lines of business.

Net Investment Income and Realized Gains

Investment income decreased \$0.1 million, or 5.6%, during the three month period ended June 30, 2024, and decreased \$0.1 million, or 2.5%, during the six month period ended June 30, 2024, over the comparable periods in 2023. The decrease in investment income in the three month and six month periods ended June 30, 2024, from the comparable periods in 2023, was primarily attributable to the decrease in the equity in earnings from investments in the Company's limited liability companies of \$0.2 million and \$0.3 million, respectively.

The Company had net realized investment gains of less than \$0.1 million during the three month period ended June 30, 2024, compared to net realized investment gains of \$0.1 million during the three month period ended June 30, 2023. The Company had net realized investment gains of less than \$0.1 million during the six month period ended June 30, 2024 and net realized investment gains of \$0.1 million during the six month period ended June 30, 2023. The net realized investment gains during the three month and six month periods ended June 30, 2023 resulted primarily from the redemption of several of the Company's investments in fixed maturity securities. Management continually evaluates the Company's investment portfolio and makes adjustments for credit losses and/or divests investments as may be determined to be appropriate.

Unrealized Gains (Losses) on Equity Securities

Investments in equity securities are measured at fair value at the end of the reporting period, with any changes in fair value reported in net income during the period. The Company recognized net unrealized gains on equity securities of \$0.2 million during the three month period ended June 30, 2024 and unrealized gains on equity securities of \$0.5 million during the three month period ended June 30, 2023. The Company recognized net unrealized gains on equity securities of \$0.1 million during the six month period ended June 30, 2024 and unrealized losses on equity securities of \$1.9 million during the six month period ended June 30, 2023. Changes in unrealized gains (losses) on equity securities for the applicable periods are the result of fluctuations in the market value of the Company's equity securities.

Interest Expense

Interest expense increased \$0.1 million, or 7.4%, during the three month period ended June 30, 2024, and \$0.2 million, or 10.6%, during the six month period ended June 30, 2024, from the comparable periods in 2023. Changes in interest expense were primarily due to changes in the Secured Overnight Financing Rate ("SOFR") published by CME Group Benchmark Administration Limited, as the interest rates on the Company's outstanding junior subordinated deferrable interest debentures ("Junior Subordinated Debentures") and the revolving credit facility are directly related to SOFR.

Liquidity and Capital Resources

The primary cash needs of the Company are for the payment of claims and operating expenses, maintaining adequate statutory capital and surplus levels, and meeting debt service requirements. Current and expected patterns of claim frequency and severity may change from period to period but generally are expected to continue within historical ranges. The Company's primary sources of cash are written premiums, investment income and proceeds from the sale and maturity of its invested assets. The Company believes that, within each operating company, total invested assets will be sufficient to satisfy all policy liabilities and that cash inflows from investment earnings, future premium receipts and reinsurance collections will be adequate to fund the payment of claims and operating expenses as needed.

Cash flows at the Parent are derived from dividends, management fees, and tax-sharing payments, as described below, from the subsidiaries. The principal cash needs of the Parent are for the payment of operating expenses, the acquisition of capital assets and debt service requirements, as well as the repurchase of shares and payments of any dividends as may be authorized and approved by the Company's board of directors from time to time. At June 30, 2024, the Parent had approximately \$6.3 million of unrestricted cash and investments.

The Parent's insurance subsidiaries reported statutory net loss of \$0.4 million for the six month period ended June 30, 2024, compared to statutory net income of \$4.1 million for the six month period ended June 30, 2023. Statutory results are impacted by the recognition of all costs of acquiring business. In periods in which the Company's first year premiums increase, statutory results are generally lower than results determined under GAAP. Statutory results for the Company's property and casualty operations may differ from the Company's results of operations under GAAP due to the deferral of acquisition costs for financial reporting purposes. The Company's life and health operations' statutory results may differ from GAAP results primarily due to the deferral of acquisition costs for financial reporting purposes, as well as the use of different reserving methods.

Over 90% of the invested assets of the Parent's insurance subsidiaries are invested in marketable securities that can be converted into cash, if required; however, the use of such assets by the Company is limited by state insurance regulations. Dividend payments to a parent corporation by its wholly owned insurance subsidiaries are subject to annual limitations and are restricted to 10% of statutory surplus or statutory earnings before recognizing realized investment gains of the individual insurance subsidiaries. At June 30, 2024, American Southern had \$52.0 million of statutory capital and surplus and Bankers Fidelity had \$32.7 million of statutory capital and surplus. In 2024, dividend payments by the Parent's insurance subsidiaries in excess of \$8.8 million would require prior approval. Through June 30, 2024, the Parent received dividends of \$5.4 million from its subsidiaries.

The Parent provides certain administrative and other services to each of its insurance subsidiaries. The amounts charged to and paid by the subsidiaries include reimbursements for various shared services and other expenses incurred directly on behalf of the subsidiaries by the Parent. In addition, there is in place a formal tax-sharing agreement between the Parent and its insurance subsidiaries. As a result of the Parent's tax loss, it is anticipated that the tax-sharing agreement will continue to provide the Parent with additional funds from profitable subsidiaries to assist in meeting its cash flow obligations.

The Company has two statutory trusts which exist for the exclusive purpose of issuing trust preferred securities representing undivided beneficial interests in the assets of the trusts and investing the gross proceeds of the trust preferred securities in Junior Subordinated Debentures. The outstanding \$18.0 million and \$15.7 million of Junior Subordinated Debentures mature on December 4, 2032 and May 15, 2033, respectively, are callable quarterly, in whole or in part, only at the option of the Company, and have an interest rate of 3-month CME Term SOFR plus applicable tenor spread of 0.26161 percent plus an applicable margin. The margin ranges from 4.00% to 4.10%. At June 30, 2024, the effective interest rate was 9.65%. The obligations of the Company with respect to the issuances of the trust preferred securities represent a full and unconditional guarantee by the Parent of each trust's obligations with respect to the trust preferred securities. Subject to certain exceptions and limitations, the Company may elect from time to time to defer Junior Subordinated Debenture interest payments, which would result in a deferral of distribution payments on the related trust preferred securities. As of June 30, 2024, the Company has not made such an election.

The Company intends to pay its obligations under the Junior Subordinated Debentures using existing cash balances, dividend and tax-sharing payments from the operating subsidiaries, or from existing or potential future financing arrangements.

At June 30, 2024, the Company had 55,000 shares of Series D preferred stock ("Series D Preferred Stock") outstanding. All of the shares of Series D Preferred Stock are held by an affiliate of the Company's controlling shareholder. The outstanding shares of Series D Preferred Stock have a stated value of \$100 per share; accrue annual dividends at a rate of \$7.25 per share (payable in cash or shares of the Company's common stock at the option of the board of directors of the Company) and are cumulative. In certain circumstances, the shares of the Series D Preferred Stock may be convertible into an aggregate of approximately 1,378,000 shares of the Company's common stock, subject to certain adjustments and provided that such adjustments do not result in the Company issuing more than approximately 2,703,000 shares of common stock without obtaining prior shareholder approval; and are redeemable solely at the Company's option. The Series D Preferred Stock is not currently convertible. At June 30, 2024, the Company had accrued but unpaid dividends on the Series D Preferred Stock totaling \$0.2 million.

Bankers Fidelity Life Insurance Company ("BFLIC") is a member of the Federal Home Loan Bank of Atlanta ("FHLB"), for the primary purpose of enhancing financial flexibility. As a member, BFLIC can obtain access to low-cost funding and also receive dividends on FHLB stock. The membership arrangement provides for credit availability of five percent of statutory admitted assets, or approximately \$8.2 million, as of June 30, 2024. Additional FHLB stock purchases may be required based upon the amount of funds borrowed from the FHLB. As of June 30, 2024, BFLIC has pledged bonds having an amortized cost of \$9.4 million to the FHLB. BFLIC may be required to post additional acceptable forms of collateral for any borrowings that it makes in the future from the FHLB. As of June 30, 2024, BFLIC does not have any outstanding borrowings from the FHLB.

On May 12, 2021, the Company entered into a Revolving Credit Agreement with Truist Bank as the lender (the "Lender"). The Revolving Credit Agreement provides for an unsecured \$10.0 million revolving credit facility that originally matured on April 12, 2024. On March 22, 2024, the Company entered into a First Amendment (the "Amendment") to its Revolving Credit Agreement (as amended, the "Credit Agreement") with the Lender. The Amendment, among other things, (a) updates the interest rate provisions to memorialize that the Company pays interest on the unpaid principal balance of outstanding revolving loans at the Adjusted Term SOFR rate (as defined in the Credit Agreement), plus 2.00%, (b) extends the maturity date of the revolving credit facility to March 22, 2027, (c) requires the monthly payment of an unused commitment fee of 0.2% of the unused facility amount, and (d) requires that the Company maintain a consolidated net worth of not less than \$64.2 million. Except as modified by the Amendment, the existing terms of the original Credit Agreement remain in effect.

The Credit Agreement requires the Company to comply with certain covenants, including a debt to capital ratio that restricts the Company from incurring consolidated indebtedness that exceeds 35% of the Company's consolidated capitalization at any time and maintaining a minimum consolidated net worth, as previously mentioned. The Credit Agreement also contains customary representations and warranties and events of default. Events of default include, among others, (a) the failure by the Company to pay any amounts owed under the Credit Agreement when due, (b) the failure to perform and not timely remedy certain covenants, (c) a change in control of the Company and (d) the occurrence of bankruptcy or insolvency events. Upon an event of default, the Lender may, among other things, declare all obligations under the Credit Agreement immediately due and payable and terminate the revolving commitments. As of June 30, 2024 and December 31, 2023, the Company had outstanding borrowings of \$4.0 and \$3.0 million, respectively, under the Credit Agreement.

Cash and cash equivalents decreased from \$28.3 million at December 31, 2023 to \$21.2 million at June 30, 2024. The decrease in cash and cash equivalents during the six month period ended June 30, 2024 was primarily attributable to net cash used in operating activities of \$4.9 million. Also contributing to the decrease in cash and cash equivalents was net cash used in investing activities of \$2.8 million primarily as a result of investment purchases exceeding investment sales and maturity of securities. Partially offsetting the decrease in cash and cash equivalents was net cash provided by financing activities of \$0.6 million primarily as a result of proceeds from bank financing.

The Company believes that existing cash balances as well as the dividends, fees, and tax-sharing payments it expects to receive from its subsidiaries and, if needed, borrowings under its credit facilities or additional borrowings from financial institutions, will enable the Company to meet its liquidity requirements for the foreseeable future. Management is not aware of any current recommendations by regulatory authorities, which, if implemented, would have a material adverse effect on the Company's liquidity, capital resources or operations.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Securities Exchange Act of 1934 (the “Exchange Act”) reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms, and that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Management necessarily applies its judgment in assessing the costs and benefits of such controls and procedures, which, by their nature, can provide only reasonable assurance regarding management’s control objectives. The Company’s management, including the Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures can prevent all possible errors or fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. There are inherent limitations in all control systems, including the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple errors or mistakes. Additionally, controls can be circumvented by the intentional acts of one or more persons. The design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and, while our disclosure controls and procedures are designed to be effective under circumstances where they should reasonably be expected to operate effectively, there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Because of the inherent limitations in any control system, misstatements due to possible errors or fraud may occur and may not be detected.

As of the end of the period covered by this report, an evaluation was performed under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company’s disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act). Based on that evaluation, management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were not effective as of that date due to a material weakness in internal control over financial reporting described below.

Remediation of Material Weakness in Internal Control Over Financial Reporting

Management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting for the Company. The Company’s internal control over financial reporting system has been designed to provide reasonable assurance regarding the reliability and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Management recognizes that there are inherent limitations in the effectiveness of any internal control system. Because of its inherent limitations, internal control over financial reporting may not prevent or detect all misstatements. Furthermore, the application of any evaluations of effectiveness on future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

As previously disclosed in Part II, Item 9A. “Controls and Procedures” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2023, we identified certain deficiencies in internal control that we believe rise to the level of a material weakness. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. Specifically, management determined that the design of the controls surrounding the process of reviewing insurance reserves and deferred acquisition costs within the Company’s life and health segment was not effective. This deficiency in design did not enable the timely detection of anomalies in these values at the level of precision necessary to detect misstated values that may be material.

Notwithstanding these deficiencies, management believes that, as a result of the actions taken by management to address and correct these deficiencies prior to the completion and filing of the relevant periodic reports for those periods, and the effective operation of other internal controls over financial reporting, the material weakness did not result in any identified material misstatements to our financial statements. As a result, there were no changes to any of our previously-released financial statements.

The Company is currently in the process of remediating the material weakness as described above, which remediation efforts began in the quarter ended March 31, 2024 and continued through the quarter ended June 30, 2024, and include developing and implementing enhanced controls related to the review of values that are estimated using actuarial models. The enhancements include implementing reviews at the product level where management evaluates, for each of the Company’s life and health products, the components of underwriting income and how they interrelate. In addition, calculations that are independent from the actuarial models will, once fully developed, validate that the product parameters and actuarial assumptions are completely and accurately reflected within the actuarial models.

The Company has also initiated the development of an array of analytical reports that will help facilitate the timely detection of anomalous values within the Company’s life and health segment. It is currently expected that these reports will be operational by September 30, 2024. These reports will include reconciliations of actuarial values from quarter to quarter, utilizing values estimated via the actuarial models and values that are produced by accounting processes.

Changes in Internal Control Over Financial Reporting

Other than the remediation efforts described above, there were no changes in the Company’s internal control over financial reporting during the quarter ended June 30, 2024 that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II. OTHER INFORMATION**Item 2. Unregistered Sales of Equity Securities, Use of Proceeds, and Issuer Purchases of Equity Securities**

On October 31, 2016, the Board of Directors of the Company approved a plan that allows for the repurchase of up to 750,000 shares of the Company's common stock (the "Repurchase Plan") on the open market or in privately negotiated transactions, as determined by an authorized officer of the Company. Any such repurchases can be made from time to time in accordance with applicable securities laws and other requirements.

During the three month period ending June 30, 2024 no purchases of common stock of the Company were made by or on behalf of the Company pursuant to the Repurchase Plan. The maximum number of shares that may yet be purchased under the Repurchase Plan was 325,129 as of June 30, 2024.

On May 24, 2022, the Company's shareholders approved the 2022 Equity and Incentive Compensation Plan (the "2022 Plan"). The 2022 Plan authorizes the grant of up to 3,000,000 stock options, stock appreciation rights, restricted shares, restricted stock units, performance shares, performance units and other awards, and succeeded the 2012 Plan for the purpose of providing the Company's non-employee directors, consultants, officers and other employees incentives and rewards for performance and service.

The table below sets forth information regarding repurchases by the Company of shares of its common stock on a monthly basis during the three month period ending June 30, 2024.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that may Yet be Purchased Under the Plans or Programs
