PROXY STATEMENT
FOR THE ANNUAL MEETING OF SHAREHOLDERS
TO BE HELD MAY 7, 2002

# **GENERAL**

This proxy statement is furnished in connection with the solicitation of proxies by the Board of Directors of Atlantic American Corporation (the "Company") for use at the Annual Meeting of Shareholders (the "Meeting") to be held at the time and place and for the purposes specified in the accompanying Notice of Annual Meeting of Shareholders and at any postponements or adjournments thereof. When the enclosed proxy is properly executed and returned, the shares which it represents will be voted at the Meeting in accordance with the instructions thereon. In the absence of any such instructions, the shares represented thereby will be voted in favor of the election of nominees for directors listed under the caption "Election of Directors"; the amendment of the Articles of Incorporation to increase the total number of shares of Common Stock authorized to be issued from 30,000,000 to 50,000,000; and the approval of the Atlantic American Corporation 2002 Incentive Plan. Management does not know of any other business to be brought before the Meeting not described herein, but it is intended that as to such other business, a vote may be cast pursuant to the proxy in accordance with the judgment of the proxies appointed thereunder. This proxy statement and the accompanying form of proxy are first being mailed to shareholders of the Company on or about April 1, 2002.

Any shareholder who executes and delivers a proxy may revoke it at any time prior to its use by (i) giving written notice of such revocation to the Secretary of the Company at 4370 Peachtree Road, N.E., Atlanta, Georgia

30319-3000; (ii) executing and delivering a proxy bearing a later date to the Secretary of the Company at 4370 Peachtree Road, N.E., Atlanta, Georgia 30319-3000; or (iii) attending the Meeting and voting in person.

Only holders of record of issued and outstanding shares of \$1.00 par value per share common stock of the Company ("Common Stock") as of March 19, 2002 (the "Record Date") will be entitled to notice of and to vote at the Meeting. On the Record Date, there were 21,258,752 shares of Common Stock outstanding. Each share of Common Stock is entitled to one vote.

#### ANNUAL REPORT

The Annual Report of the Company for the year ended December 31, 2001, including financial statements, is being provided with this proxy statement. The Company's Annual Report on Form 10-K, filed with the Securities and Exchange Commission, provides certain additional information. Shareholders may obtain a copy of the Form 10-K without charge upon written request addressed to: Corporate Secretary, Atlantic American Corporation, 4370 Peachtree Road, N.E., Atlanta, Georgia 30319-3000. If the person requesting a copy of the Form 10-K is not a shareholder of record, the request must include a representation that the person is a beneficial owner of the Common Stock.

#### EXPENSES OF SOLICITATION

The costs of soliciting proxies will be borne by the Company. Officers, directors and employees of the Company may solicit proxies by telephone, telegram or personal interview. No contract or arrangement exists for engaging specially-paid employees or solicitors in connection with the solicitation of proxies for the Meeting. Arrangements may be made with brokerage houses and other custodians, nominees and fiduciaries to send proxies and proxy materials to their principals, and the Company will reimburse them for their expenses in so doing.

# VOTE REQUIRED

A majority of the outstanding shares of Common Stock must be present in person or by proxy at the Meeting in order to have the quorum necessary to transact business. Abstentions and broker "non-votes" will be counted as present in determining whether the quorum requirement is satisfied. Directors are elected by the affirmative vote of a plurality of the shares of Common Stock present in person or by proxy and actually voting at a meeting at which a quorum is present. To approve the amendment to the Company's Articles of Incorporation that will increase the number of shares of Common Stock authorized from 30,000,000 to 50,000,000, the affirmative vote of a majority of the shares outstanding as of the Record Date is required. In order for shareholders to approve the other matters scheduled to be presented at the Meeting, the votes cast favoring the proposal must exceed the votes cast opposing the proposal. Abstentions and non-votes will have no effect on the voting with respect to any proposal as to which there is an abstention or non-vote. A "non-vote" occurs when a nominee holding shares for a beneficial owner votes on one proposal pursuant to discretionary authority or instructions from the beneficial owner, but does not vote on another proposal because the nominee has not received instruction from the beneficial owner and does not have discretionary power.

#### **EXECUTIVE COMPENSATION**

-Report of the Stock Option and Compensation Committee on Executive Compensation

#### Compensation Philosophy

The Compensation Committee believes that compensation of executives should be designed to motivate those persons to perform at their potential over both the short and the long term. The Compensation Committee believes that equity based incentives can benefit the Company by increasing the retention of executives while aligning their long term interests with those of the Company's shareholders. Compensation determinations are primarily based on the performance of the Company and the individual executive officer during a particular year, and expectations and objectives for performance in the succeeding year. The Compensation Committee also believes that compensation packages for executives must be structured to take into account the nature and the growth of the Company's lines of business in appropriate circumstances.

Cash Compensation. The compensation packages for the executive officers consist of three components: base salaries, cash bonuses and equity incentives.

The Chairman of The Board annually reviews executive officer compensation and recommends to the Compensation Committee proposed salaries and bonuses for himself and for each of the other executive officers. Factors considered by the Chairman and the Compensation Committee are based upon the growth of the Company with regard to net income, total assets, premiums and shareholders' equity. of these factors were considered in establishing salary levels for each of the executive officers, as were their individual duties and the growth and effectiveness of each in performing those duties. In establishing compensation levels for the executive officers for 2001, the Compensation Committee sought to structure compensation packages that were designed both to achieve the objective of the Compensation Committee's compensation philosophy and to be competitive with those offered by similarly situated companies. For 2001, the Chairman of The Board elected not to recommend an increase in his own salary, and the Compensation Committee did not implement an increase in his salary. Compensation Committee did increase the base salary for the other named executive officers for 2001, having taken into consideration the factors identified above. Upon the Chairman of The Board's recommendation, the Compensation Committee awarded cash bonuses to each of the named executive officers, including to the Chief Executive Officer as described below. The bonuses are generally determined as a percentage of the executive officer's base salary for the succeeding fiscal year. The bonuses, which were actually paid in the first quarter of 2002, reflect an evaluation of the individual performance of the officers, as well as the performance of the Company as a whole during

Equity Based Compensation. The Compensation Committee believes that equity based compensation in the form of stock options or other stock awards serves to motivate executives to seek to improve the Company's short-term and long-term prospects and to align the interests of the Company's executives with those of the shareholders. During 2001, the Compensation Committee granted stock options at prevailing market prices on the dates of grant. The factors used in determining the size of the individual grant were the same as those considered with respect to cash bonuses. The grant vested with respect to one half of the shares purchasable thereunder on the date of grant with the remainder vesting in equal increments on each of the first and second anniversaries of the date of grant. The vesting schedule is designed to encourage both short-term and long-term performance.

Chief Executive Officer. Mr. Howell's compensation is generally evaluated on the same basis as the Company's other executive officers. The Committee approved an increase of 5% in Mr. Howell's base salary for 2001, and in 2002—awarded Mr. Howell a cash bonus of \$136,000 in recognition of his contributions during 2001. In 2001, the Compensation Committee granted stock options to purchase 100,000 shares to Mr. Howell at prevailing market prices.

The Board of Directors has adopted and recommends to the shareholders that they approve an amendment to the Articles of Incorporation of the Company that will increase the total number of authorized shares of Common Stock, par value \$1.00 per share, from 30,000,000 shares to 50,000,000 shares. The proposed amendment would delete the first sentence of Article V of the Company's Articles of Incorporation in its entirety and substitute in lieu of such paragraph the following:

"The total number of shares of capital stock of the Corporation shall be 54,000,000, which shall consist of (a) 50,000,000 shares of common stock of the par value of \$1.00 per share ("Common Stock"), and (b) 4,000,000 shares of Preferred Stock of par value of \$1.00 per share ("Preferred Stock"), of which Preferred Stock (i) 30,000 shares shall be designated as "Series A Convertible Preferred Stock" having the powers, preferences and rights designated as part of these Restated Articles of Incorporation, (ii) 134,000 shares shall be designated as "Series B Preferred Stock" having the powers, preferences and rights designated as part of these Restated Articles of Incorporation, and (iii) 100,000 shares shall be designated as "Series C Preferred Stock" having the powers, preferences and rights designated as part of these Restated Articles of Incorporation."

The Board of Directors, believes that it is in the best interests of the Company and its shareholders to increase the number of authorized shares of Common Stock to insure a sufficient number of shares are available for future issuances. The Company currently has 30,000,000 shares of Common Stock authorized, of which approximately 21,400,000 are already issued and outstanding, and an additional 6,300,000 are already reserved for issuance pursuant to existing Stock Option Plans, the 401(k) Plan or upon conversion of outstanding shares of preferred stock. That leaves only 2,300,000 shares authorized but unissued. The Board of Directors anticipates that circumstances will arise during the normal course of business whereby the Company will desire to issue shares of Common Stock in excess of the currently authorized amount for various business and financial needs of the Company, including, but not limited to, potential acquisitions and The availability of additional authorized but unissued shares will provide the Company with flexibility to issue Common Stock to meet those needs. Further, the Board of Directors believes that the availability of additional shares of common stock will enable us to attract and retain talented employees through the ability to continue to grant stock options or other stock-based incentives in the future. The Board of Directors will determine whether, when, and on what terms the issuance of shares of common Stock may be warranted in connection with any of the foregoing purposes. The Board of Directors anticipates that increasing the authorized number of shares of Common Stock from 30,000,000 to 50,000,000 will be sufficient to satisfy the reasonably foreseeable needs of the Company. Other than the 2,000,000 shares of Common Stock that will be reserved for issuance under the 2002 Incentive Plan, subject to shareholder approval of that plan, the Company does not currently have any specific plans or arrangements to issue additional shares of Common Stock.

The amendment will not affect the par value of the Common Stock, which would remain \$1.00 per share. The additional Common Stock to be authorized by adoption of the amendment would have rights identical to the currently outstanding Common Stock of the Company. If the proposed amendment is approved, existing stockholders will not have any rights to purchase any newly issued shares in order to maintain their proportionate ownership interests. Adoption of the proposed amendment and issuance of the Common Stock would not affect the rights of the holders of currently outstanding Common Stock of the Company, except for effects incidental to potential increases in the number of shares of the Company's Common Stock that may be outstanding in the future, such as dilution of earnings per share and of prorata voting rights of current holders of Common Stock. If the amendment is approved at the meeting, it will become effective upon filing of Articles of Amendment of the Company's Articles of Incorporation with the Georgia Secretary of State.

The Board of Directors recommends a vote "FOR" the proposal to amend the Company's Articles of Incorporation to increase the total number of authorized shares of Common Stock from 30,000,000 to 50,000,000.

3. RATIFICATION OF THE ATLANTIC AMERICAN CORPORATION 2002 INCENTIVE PLAN

# General

The Board of Directors (the "Board") adopted the Atlantic American Company 2002 Incentive Plan (the "Plan") on February 26, 2002, subject to approval by the Company's shareholders at the Meeting. The Plan provides the Company with the ability to offer a variety of compensatory awards designed to advance the interests and long-term success of the Company by encouraging stock ownership among key employees and, correspondingly, increasing their personal involvement with the future of the Company. The Board believes that continuing to provide officers and key employees of the Company with the ability to acquire a proprietary interest in the Company (i) is a significant value to the Company in its efforts to recruit and retain officers and key employees, (ii) instills loyalty and (iii) encourages the generation of long-term value for the Company's shareholders by aligning management and shareholder interests, and has therefore concluded that adoption of the Plan is in the best interests of the Company and its shareholders.

A summary of the material terms of the plan is set forth below. The full text of the Plan is annexed to this Proxy Statement as Appendix A, and the following summaries are qualified in their entirety by reference to Appendix A.

#### Summary of the Plan

Shares Available Under the Plan. Subject to adjustment as provided in the Plan, the number of shares of Common Stock that may be issued or transferred (i) upon the exercise of Option Rights or Appreciation Rights, (ii) as Restricted Shares and released from substantial risks of forfeiture thereof, (iii) as Deferred Shares, (iv) in payment of Performance Shares or Performance Units that have been earned, (v) as awards to Non-Employee Directors or (vi) in payment of dividend equivalents paid with respect to awards made under the Plan shall not exceed, in the aggregate, 2,000,000 shares plus any shares relating to awards that expire or are forfeited or cancelled. Such shares may be shares of original issuance or treasury shares or a combination of the foregoing. Upon the payment of any Option Price by the transfer to the Company of shares of Common Stock or upon satisfaction of any withholding amount by means of transfer or relinquishment of shares of Common Stock, there shall be deemed to have been issued or transferred under the Plan only the net number of shares of Common Stock actually issued or transferred by the Company.

The aggregate number of shares of Common Stock actually issued or transferred by the Company upon the exercise of Incentive Stock Options ("ISO") shall not exceed 2,000,000 shares. Further, no participant shall be granted Option Rights for more than 300,000 shares of Common Stock during any calendar year, subject to adjustments as provided in the Plan. In no event shall any participant in any calendar year receive more than 300,000 Appreciation Rights, 100,000 Restricted Shares, 100,000 Deferred Shares or receive an award of Performance Shares or Performance Units having an aggregate maximum value as of their respective Dates of Grant in excess of \$500,000, subject to adjustments as provided in the Plan.

Eligibility. Officers and key employees of the Company and its subsidiaries may be selected by the Board to receive benefits under the Plan. In addition, non-employee directors of the Company will be eligible for discretionary grants of Option Rights as described below under the heading "Awards to Non-Employee Directors."

Option Rights. Option Rights may be granted which entitle the Optionee to purchase shares of Common Stock at a price less than market value at the date of grant, except that the option price per share for any ISO shall not be less than 100 percent of market value per share. The option price is payable (i) in cash at the time of exercise; (ii) by the transfer to the Company of nonforfeitable unrestricted shares of Common Stock owned by the Optionee having a value at the time of exercise equal to the option price; (iii) by surrender of any other award under the Plan having a value at the time of exercise equal to the option price; or (iv) a combination of such payment methods. The Plan would permit the exercise of Option Rights by means of the delivery of previously owned shares of Common Stock in partial satisfaction of the exercise price and the successive re delivery of the shares so obtained to satisfy the exercise price of additional Option Rights until the grant has been fully exercised.

The Board has the authority to specify at the time Option Rights are granted that shares of Common Stock will not be accepted in payment of the option price until they have been owned by the Optionee for a specified period; however, the Plan does not require any such holding period and would permit immediate sequential exchanges of shares of Common Stock at the time of exercise of Option Rights. Any grant of an Option Right may provide for deferred payment of the option price from the proceeds of sale through a broker of some or all of the shares of Common Stock to which the exercise relates.

Any grant may provide for the automatic grant of additional Option Rights ("Reload Option Rights") to an Optionee upon the exercise of Option Rights using shares of Common Stock as payment. Any Reload Option Rights may cover up to the number of shares of Common Stock, Deferred Shares, Option Rights or Performance Shares (or the number of shares of Common Stock having a value equal to the value of any Performance Units) surrendered to the Company upon exercise in payment of the option price or to meet any withholding obligations. The Reload Option Rights may have an option price that represents the same or greater percentage of the current market value per share at the time of exercise of the Option Rights that the option price of the Option Rights represented of the market value per share at the time such Option Rights were granted. Depending on the limitations, if any, imposed by the Board at the time of grant, Reload Option Rights with such a discount feature would permit an Optionee, by delivery of previously owned shares of Common Stock upon successive exercises of Reload Option Rights, to reduce or eliminate the amounts payable upon original exercise of the Option Rights.

The Board may, at or after the date of grant of any Option Rights (other than the grant of an ISO), provide for the payment of dividend equivalents to the Optionee on a current, deferred or contingent basis or may provide that such equivalents be credited against the option price.

No Option Right may be exercisable more than 10 years from the date of grant-Each grant must specify the period of continuous employment with the Company or any subsidiary that is necessary before the Option Rights will become exercisable and may provide for the earlier exercise of such Option Rights in the event of a change in control or other similar transaction or event-Successive grants may be made to the same Optionee whether or not Option Rights previously granted remain unexercised. Any grant of Option Rights may specify Management Objectives (as described below) that must be achieved as a condition to exercise such rights. Option Rights must be evidenced by an Evidence of Award containing the terms and provisions, consistent with the Plan, as the Board may approve.

Page 10

Rights. Appreciation Rights provide Optionees with an alternative means of realizing the benefits of Option Rights. An Appreciation Right is a right, exercisable by surrender of the related Option Right, to receive from the Company an amount equal to 100 percent, or such lesser percentage as the Board may determine, of the spread between the option price and the current value of the shares of Common Stock underlying the option. Any grant may specify that the amount payable on exercise of an Appreciation Right may be paid by the Company in cash, in shares of Common Stock, or in any combination thereof, and may either grant to the Optionee or retain in the Board the right to elect among those alternatives. Any grant may specify that such Appreciation Right may be exercised only in the event of a change in control or other similar transaction or event. Any grant of Appreciation Rights may specify Management Objectives that must be achieved as a condition to exercise such rights. Appreciation Rights must be evidenced by an Evidence of Award containing the terms and provisions, consistent with the Plan, as the Board may approve.

Restricted Shares. A grant of Restricted Shares involves the immediate transfer by the Company to a participant of ownership of a specific number of shares of Common Stock in consideration of the performance of services. The participant is entitled immediately to voting, dividend and other ownership rights in such shares. The transfer may be made without additional consideration or in consideration of a payment by the participant that is less than current market value, as the Board may determine.

Restricted Shares must be subject to a "substantial risk of forfeiture" within the meaning of Section 83 of the Code for a period of time to be determined by the Board. An example would be a provision that the Restricted Shares would be forfeited if the participant ceased to serve the Company as an officer or key employee during a specified period of years. In order to enforce these forfeiture provisions, the transferability of Restricted Shares will be prohibited or restricted in a manner and to the extent prescribed by the Board for the period during which the forfeiture provisions are to continue. The Board may provide for a shorter period during which the forfeiture provisions are to apply in the event of a change in control of the Company or other similar transaction or event.

Any grant of Restricted Shares may specify Management Objectives which, if achieved, will result in termination or early termination of the restrictions applicable to such shares. Any such grant must also specify in respect of such specified Management Objectives, a minimum acceptable level of achievement and must set forth a formula for determining the number of Restricted Shares on which restrictions will terminate if performance is at or above the minimum level, but below full achievement of the specified Management Objectives. Restricted Shares must be evidenced by an Evidence of Award containing the terms and provisions, consistent with the Plan, as the Board may approve.

Deferred Shares. A grant of Deferred Shares constitutes an agreement by the Company to deliver shares of Common Stock to the participant in the future in consideration of the performance of services, but subject to the fulfillment of such conditions during the Deferral Period as the Board may specify. During the Deferral Period, the participant has no right to transfer any rights under his or her award and no right to vote such Shares, but the Board may, at or after the date of grant, authorize the payment of dividend equivalents on such Shares on either a current or deferred or contingent basis, either in cash or in additional shares of Common Stock. Awards of Deferred Shares may be made without additional consideration or in consideration of a payment by such participant that is less than the market value per share at the date of award.

Deferred Shares must be subject to a Deferral Period, as determined by the Board at the date of the award, except that the Board may provide for a shorter Deferral Period in the event of a change in control or other similar transaction or event. Deferred Shares must be evidenced by an Evidence of Award containing the terms and provisions, consistent with the Plan, as the Board may approve.

Performance Shares and Performance Units. A Performance Share is the equivalent of one Common Share and a Performance Unit is the equivalent of \$1.00. participant may be granted any number of Performance Shares or Performance Units, subject to the limitations set forth under Available Shares. The participant will be given one or more Management Objectives to meet within a specified period (the "Performance Period"). The specified Performance Period shall be a period of time not less than one year, except in the case of a change in control or other similar transaction or event, if the Board shall so determine. A minimum level of acceptable achievement will also be established by the Board. If by the end of the Performance Period, the participant has achieved the specified Management Objectives, the participant will be deemed to have fully earned the Performance Shares or Performance Units. If the participant has not achieved the Management Objectives, but has attained or exceeded the predetermined minimum level of acceptable achievement, the participant will be deemed to have partly earned the Performance Shares or Performance Units in accordance with a prédetermined formula. To the extent earned, the Performance Shares or Performance Units will be paid to the participant at the time and in manner determined by the Board in cash, shares of Common Stock or any combination thereof. The grant may provide for the payment of dividend equivalents thereon in cash or in shares of Common Stock on a current, deferred or contingent basis. Performance Shares and Performance Units must be evidenced by an Evidence of Award containing the terms and provisions, consistent with the Plan, as the Board may approve.

The Plan requires that the Board establish Objectives. Objectives" for purposes of Performance Shares and Performance Units. When so determined by the Board, Option Rights, Appreciation Rights, Restricted Shares and dividend credits may also specify Management Objectives. Management Objectives may be described in terms of either Company-wide objectives or objectives that are related to the performance of the individual participant or subsidiary, division, department or function within the Company or a subsidiary in which the participant is employed. Management Objectives applicable to any award to a participant who is, or is determined by the Board likely to become, a Covered Employee, shall be limited to specified levels of or growth in (i) earnings; (ii) earnings per share; (iii) share price; (iv) total shareholder return; (v) return on invested capital, equity or assets; (vi) operating earnings; (vii) sales growth; and (viii) productivity improvement. If the Board determines that a change in the business, operations, corporate structure or capital structure of the Company, or the manner in which it conducts its business, or other events or circumstances render the Management Objectives unsuitable, the Board may in its discretion modify such Management Objectives or the minimum acceptable level of achievement, in whole or in part, as the Board deems appropriate and equitable, except in the case of a Covered Employee where such action would result in the loss of the otherwise available exemption under Section 162(m) of the Internal Revenue Code. In such case, the Board may not make any modification of the Management Objectives or minimum acceptable level of achievement.

Awards to Non-Employee Directors. The Board may, in its discretion, authorize the granting to Non-Employee Directors of Option Rights and may also authorize the grant or sale of Restricted Shares to Non-Employee Directors. Non-Employee Directors are not eligible to receive any other awards under the Plan.

Each such Option Right will be fully exercisable commencing six months after the date of grant so long as the Optionee has continuously remained a director through that date. Also, any Option Right will be exercisable upon the Optionee's death or disability. Each such Option Right granted under the Plan will expire five years from the date of the grant, unless subject to earlier termination pursuant to the Plan.

In the event of the termination of service on the Board by the holder of any such Option Rights, other than by reason of disability or death, the then outstanding Option Rights of such holder may be exercised only to the extent that they were exercisable on the date of such termination and will expire on the earlier of their stated termination date or 90 days following the termination of the holder's service on the Board. In the event of death or disability, each of the then outstanding Option Rights of such holder may be exercised until the earlier of 1 year after such death or disability or the otherwise stated expiration date of the Option Rights.

If a Non-Employee Director subsequently becomes an employee of the Company or a subsidiary while remaining a member of the Board, any Option Rights held at that time will not be affected.

Option Rights may be exercised by a Non-Employee Director only by payment in full of the Option Price. Such payment may be in cash, in shares of Common Stock previously owned by the director for more than six months, or a combination of both. Each grant may provide for the automatic grant of Reload Option Rights to an Optionee upon the exercise of Option Rights (including Reload Option Rights) using shares of Common Stock. Reload Option Rights will cover up to the number of shares of Common Stock surrendered to the Company upon any such exercise in payment of the Option Price. Reload Options may have an Option Price that is no less than that which represents the same percentage of the market value per share at the time of exercise of the Option Rights that the per share Option Price represented of the market value per share at the time the Option Rights being exercised were granted and will be on such other terms as may be specified by the directors, which may be the same or different from those of the original Option Rights.

Each grant or sale of Restricted Shares to Non-Employee Directors will be upon terms and conditions as described above.

Administration and Amendments. The Plan is to be administered by the Board, except that the Board has the authority under the Plan to delegate any or all of its powers under the Plan to a committee (or subcommittee thereof) consisting of not less than three Non-Employee Directors within the meaning of Rule 16b 3 and who are "outside directors" within the meaning of Section 162(m) of the Code.

The Board is authorized to interpret the Plan and related agreements and other documents. The Board may make awards to employees under any or a combination of all of the various categories of awards that are authorized under the Plan, or in its discretion, make no awards. The Board may amend the Plan from time to time without further approval by the shareholders of the Company except where required by applicable law or the rules and regulations of a national securities exchange. The Company reserves authority to offer similar or dissimilar benefits in plans that do not require shareholder approval.

The Board may provide for special terms for awards to participants who are foreign nationals or who are employed by the Company or any of its subsidiaries outside of the United States of America as the Board may consider necessary or appropriate to accommodate differences in local law, tax policy or custom.

Transferability. Except as otherwise determined by the Board, no Option Right or Appreciation Right or other derivative security is transferable by an Optionee except, upon death, by will or the laws of descent and distribution. If, however, the Optionee is not a director or officer of the Company, transfer may be made to a fully revocable trust of which the Optionee is treated as the owner for federal income tax purposes. Except as otherwise determined by the Board, Option Rights and Appreciation Rights are exercisable during the Optionee's Lifetime only by him or her. Notwithstanding the above, the Board may provide for transferability of awards under the Plan if such provision would not disqualify the exemption for other awards under Rule 16b 3 of the Exchange Act.

The Board may specify at the Date of Grant that part or all of the shares of Gommon Stock that are (i) to be issued or transferred by the Company upon exercise of Option Rights or Appreciation Rights, upon termination of the Deferral Period applicable to Deferred Shares or upon payment under any grant of Performance Shares or Performance Units or (ii) no longer subject to the substantial risk of forfeiture and restrictions on transfer referred to in Section 6 of the Plan, shall be subject to further restrictions on transfer.

Adjustments. The maximum number of shares that may be issued and delivered under the Plan, the number of shares covered by outstanding Option Rights and Appreciation Rights, and the prices per share applicable thereto, are subject to adjustment in the event of stock dividends, stock splits, combinations of shares, recapitalizations, mergers, consolidations, spin offs, reorganizations, liquidations, issuances of rights or warrants, and similar events. In the event of any such transaction or event, the Board, in its discretion, may provide in substitution for any or all outstanding awards under the Plan such alternative consideration as it, in good faith, may determine to be equitable in the circumstances and may require the surrender of all awards so replaced. The Board may also make or provide for such adjustments in the numbers of shares specified in Section 3 of the Plan as the Board may determine appropriate to reflect any transaction or event described above.

Withholding Taxes. To the extent that the Company is required to withhold federal, state, local or foreign taxes in connection with any payment made or benefit realized by a participant or other person under this Plan, and the amounts available to the Company for such withholding are insufficient, it will be a condition to the receipt of such payment or the realization of such benefit that the participant or such other person make arrangements satisfactory to the Company for payment of the balance of such taxes required to be withheld, which arrangements (in the discretion of the Board) may include relinquishment of a portion of such benefit. Participants must also make such arrangements as the Company may require for the payment of any withholding tax obligations that may arise in connection with the disposition of shares acquired upon the exercise of Option Rights. In no event, however, may the Company accept shares of Common Stock for the payment of taxes in excess of required tax withholding rates. However, in the discretion of the Board, a participant or such other person may surrender shares of Common Stock owned for more than 6 months to satisfy any tax obligations resulting from any such transaction.

Detrimental Activity. Any Evidence of Award may provide that if a participant, either during employment by the Company or a Subsidiary or within a specified period after termination of such employment, engages in any Detrimental Activity, and the Board so finds, forthwith upon notice of such finding, the participant must:

- (A) Return to the Company, in exchange for payment by the Company of any amount actually paid therefor by the participant, all shares of shares of Common Stock that the participant has not disposed of that were offered pursuant to this Plan within a specified period prior to the date of the commencement of such Detrimental Activity, and
  - (B) With respect to any shares of Common Stock so acquired that the participant has disposed of, pay to the Company in eash the difference between:
    - (i) Any amount actually paid therefor by the participant pursuant to this Plan, and
    - (ii) The Market Value per Share of the shares of Common Stock on the date of such acquisition.

To the extent that such amounts are not paid to the Company, the Company may set off the amounts so payable to it against any amounts that may be owing from time to time by the Company or a Subsidiary to the participant, whether as wages, deferred compensation or vacation pay or in the form of any other benefit or for any other reason.

Governing Law. The Plan and all awards granted and actions taken thereunder will be governed by the internal substantive laws of Georgia.

Plan Benefits. The benefits or amounts that may be awarded in the future under the Plan are not determinable, nor are the benefits or amounts that would have been received or allocated to participants for the fiscal year ended December 21, 2001.

Federal Income Tax Consequences

consequences of certain transactions under the Plan based on Federal income tax laws in effect on January 1, 2002. This summary is not intended to be complete and does not describe state or local tax consequences.

#### Tax Consequences to Participants

Non-qualified Stock Options. In general, (i) no income will be recognized by an Optionee at the time a non-qualified Option Right is granted; (ii) at the time of exercise of a non-qualified Option Right, ordinary income will be recognized by the Optionee in an amount equal to the difference between the option price paid for the shares and the fair market value of the shares, if unrestricted, on the date of exercise; and (iii) at the time of sale of shares acquired pursuant to the exercise of a non-qualified Option Right, appreciation (or depreciation) in value of the shares after the date of exercise will be treated as either short term or long term capital gain (or loss) depending on how long the shares have been held.

Incentive Stock Options. No income generally will be recognized by an Optionee upon the grant or exercise of an ISO. The exercise of an ISO, however, may result in alternative minimum tax liability. If shares of Common Stock are issued to the Optionee pursuant to the exercise of an ISO, and if no disqualifying disposition of such shares is made by such Optionee within two years after the date of grant or within one year after the transfer of such shares to the Optionee, then upon sale of such shares, any amount realized in excess of the option price will be taxed to the Optionee as a long-term capital gain and any loss sustained will be a long-term capital loss.

If shares of Common Stock acquired upon the exercise of an ISO are disposed of prior to the expiration of either holding period described above, the Optionee generally will recognize ordinary income in the year of disposition in an amount equal to the excess (if any) of the fair market value of such shares at the time of exercise (or, if less, the amount realized on the disposition of such shares if a sale or exchange) over the option price paid for such shares. Any further gain (or loss) realized by the participant generally will be taxed as short-term or long-term capital gain (or loss) depending on the holding period.

Appreciation Rights. No income will be recognized by a participant in connection with the grant of an Appreciation Right. When the Appreciation Right is exercised, the participant normally will be required to include as taxable ordinary income in the year of exercise an amount equal to the amount of eash received and the fair market value of any unrestricted shares of Common Stock received on the exercise.

Restricted Shares. The recipient of Restricted Shares generally will be subject to tax at ordinary income rates on the fair market value of the Restricted Shares (reduced by any amount paid by the participant for such Restricted Shares) at such time as the shares are no longer subject to forfeiture or restrictions on transfer for purposes of Section 83 of the Code ("Restrictions"). However, a recipient who so elects under Section 83(b) of the Code within 30 days of the date of transfer of the shares will have taxable ordinary income on the date of transfer of the shares equal to the excess of the fair market value of such shares (determined without regard to the Restrictions) over the purchase price, if any, of such Restricted Shares. If a Section 83(b) election has not been made, any dividends received with respect to Restricted Shares that are subject to the Restrictions generally will be treated as compensation that is taxable as ordinary income to the participant.

Deferred Shares. No income generally will be recognized upon the award of Deferred Shares. The recipient of a Deferred Share award generally will be subject to tax at ordinary income rates on the fair market value of unrestricted shares of Common Stock on the date that such shares are transferred to the participant under the award (reduced by any amount paid by the participant for such Deferred Shares), and the capital gains/loss holding period for such shares will also commence on such date.

Performance Shares and Performance Units. No income generally will be recognized upon the grant of Performance Shares or Performance Units. Upon payment in respect of the earn out of Performance Shares or Performance Units, the recipient generally will be required to include as taxable ordinary income in the year of receipt an amount equal to the amount of eash received and the fair market value of any unrestricted shares of Common Stock received.

# Tax Consequences to the Company or Subsidiary

To the extent that a participant recognizes ordinary income in the circumstances described above, the Company or subsidiary for which the participant performs services generally will be entitled to a corresponding deduction provided that, among other things, the income meets the test of reasonableness, is an ordinary and necessary business expense, is not an "excess parachute payment" within the meaning of Section 280G of the Code and is not disallowed by the \$1 million limitation on certain executive compensation under Section 162(m) of the Code.

The Board of Directors recommends a vote "FOR" the approval of the Atlantic American Corporation 2002 Incentive Plan.

#### INDEPENDENT PUBLIC ACCOUNTANTS

Arthur Andersen LLP has audited the financial statements of the Company since 1974. During fiscal year 2001, the Company retained Arthur Andersen LLP to provide services in the following categories and amounts:

#### Audit Fees

The Company has paid or expects to pay Arthur Andersen LLP \$337,500, in the aggregate, for professional services it rendered for the audit of the Company's consolidated financial statements for the fiscal year ended December 31, 2001 and the reviews of the interim financial statements included in our Forms 10-Q filed during the fiscal year ended December 31, 2001.

Financial Information Systems Design and Implementation Fees

The Company has not paid Arthur Andersen LLP for financial information design and implementation fees described in paragraph (c)(4)(ii) of Rule 2-01 of Regulation S X, since it did not render any of those services for us during the fiscal year ended December 31, 2001.

# All Other Fees

The Company has paid Arthur Andersen LLP \$124,000 (tax compliance and consulting services), in the aggregate, for all other services it rendered during the fiscal year ended December 31, 2001.

The Company's Audit Committee has considered whether the provision of non-audit services by Arthur Andersen LLP is compatible with maintaining auditor independence.

The Board of Directors has not yet made a final determination as to which independent certified public accountants will audit the Company's books, records and accounts for the year ending December 31, 2002, and, therefore, shareholders are not being asked to take any action with respect to the selection of independent accountants for 2002.

# CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Company leases space for its principal offices, as well as the principal offices of certain of its subsidiaries, in an office building located at 4370 Peachtree Road, N.E., Atlanta, Georgia, from Delta Life Insurance Company, a corporation owned by Mr. Robinson and members of his immediate family, under leases expiring May 31, 2002 and July 31, 2005.
